

# Nebraska County Courts 2010

## Caseload Per Full-Time Employee Report

Prepared by the Nebraska Supreme Court  
Administrative Office of the Courts & Probation

# 2010 FTE REPORT

The Caseload Per Full Time Equivalent Report is used to compare the workload of county courts across the state.

This workload comparison is shown in three different columns on the report.

## 2010 Caseload Per FTE

This computation is made by dividing the actual case filings by the number of full time equivalent employees in a court.

## 2010 Adjusted Caseload Per FTE

Before computing the caseload per full time equivalent, the case filings are adjusted in the following manner:

500 cases are added to the annual case filings for each judge who utilizes a county court as his or her home court.

250 cases are added to the annual case filings if the court is a "one person or less court."

These adjustments are made to compensate for the workload that is not case-related in the situations described above.

800 - 1,200 cases per full time equivalent is considered an average or satisfactory workload range.

Symbol definitions listed below:

<b>J</b>	<b>Residing Judge</b>
<b>1</b>	<b>One person or less court</b>
<b>#</b>	<b>Courts that share a Clerk Magistrate</b>
<b>T</b>	<b>Transcriber</b>

## 2010 CASELOAD PER FULL TIME EMPLOYEE REPORT HIGHEST TO LOWEST CASELOAD
