Annual Caseload Report, FY 2021

This Annual Caseload Report contains caseload statistics for the Nebraska Workers' Compensation Court, which has jurisdiction over claims alleged to have arisen out of and in the course of employment relationships as well as most issues ancillary to the resolution of an employee's right to workers' compensation benefits. See the Nebraska Workers' Compensation Act found at NEB. REV. STAT. §§ 48-101 through 48-1,117.

Tasks associated with litigation, such as filings of petitions, motions, and settlements are the focus of this report. The Nebraska Workers' Compensation Court submits an Annual Report to the Chief Justice describing the court's adjudication division activities as well as its regulatory and administrative functions. The fiscal year 2021 Annual Report for the Nebraska Workers' Compensation Court is available on its website: <https://www.wcc.ne.gov>.

Petitions and Applications to Modify Award by County

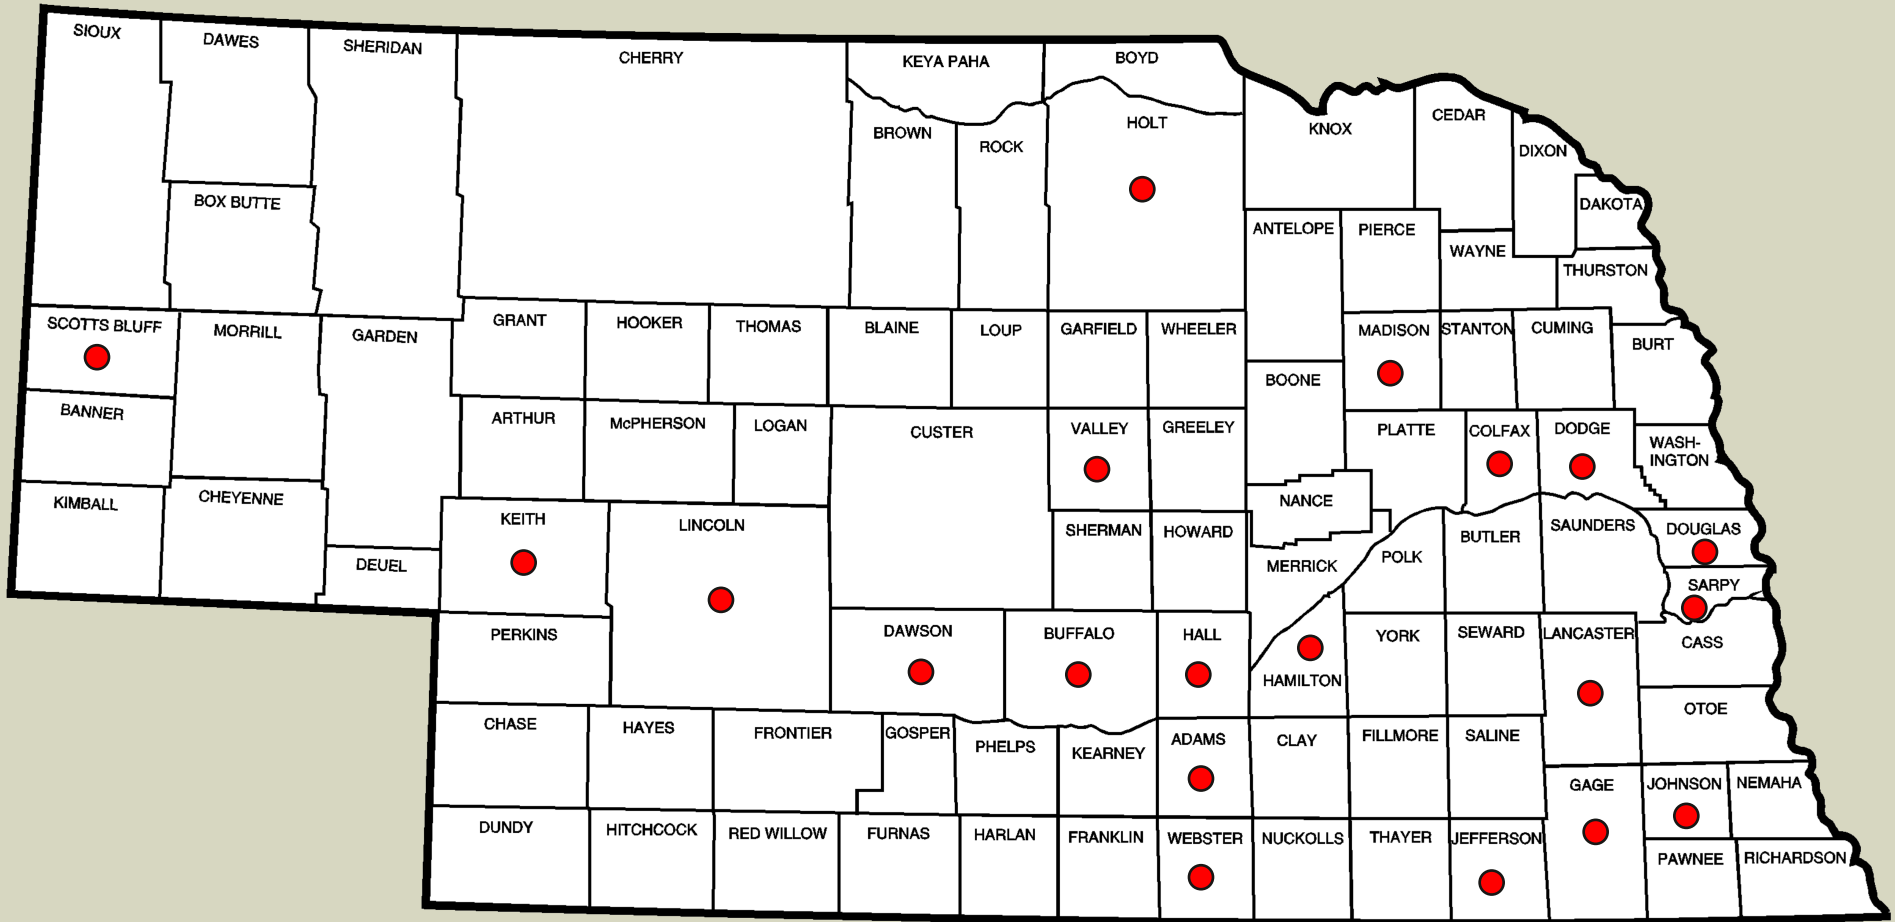

Below is a map showing the total number of Petitions and Applications to Modify Award filed with the court and allocating them to the counties where those Petitions allege the accidents occurred.

In addition to the cases shown below, allegations in an initial Petition can be litigated separately upon entry of an order allowing such. This happened in 11 cases during fiscal year 2021.

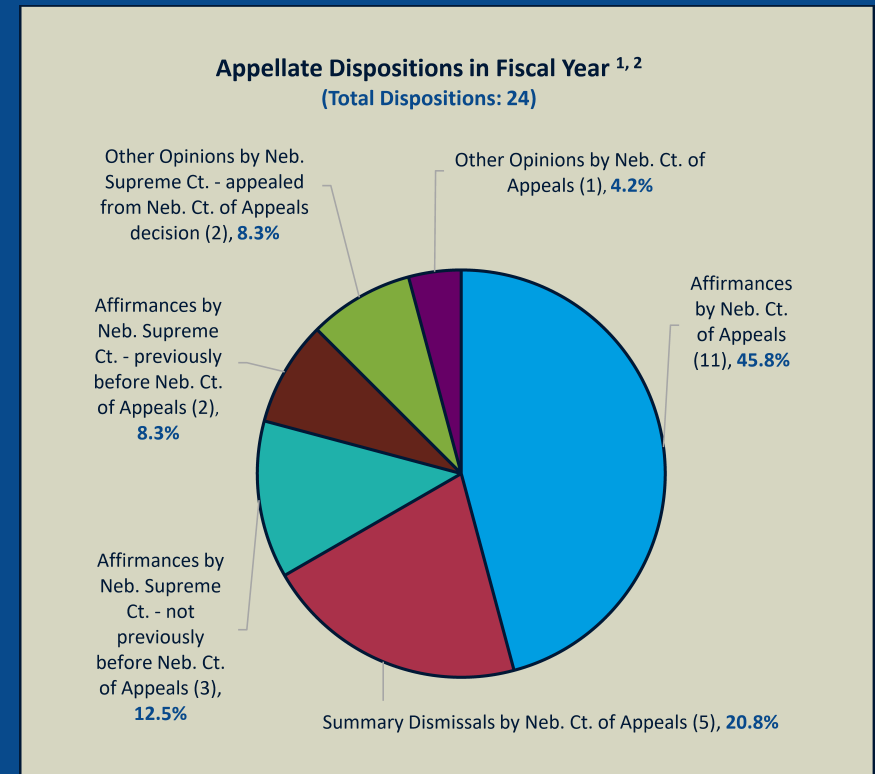

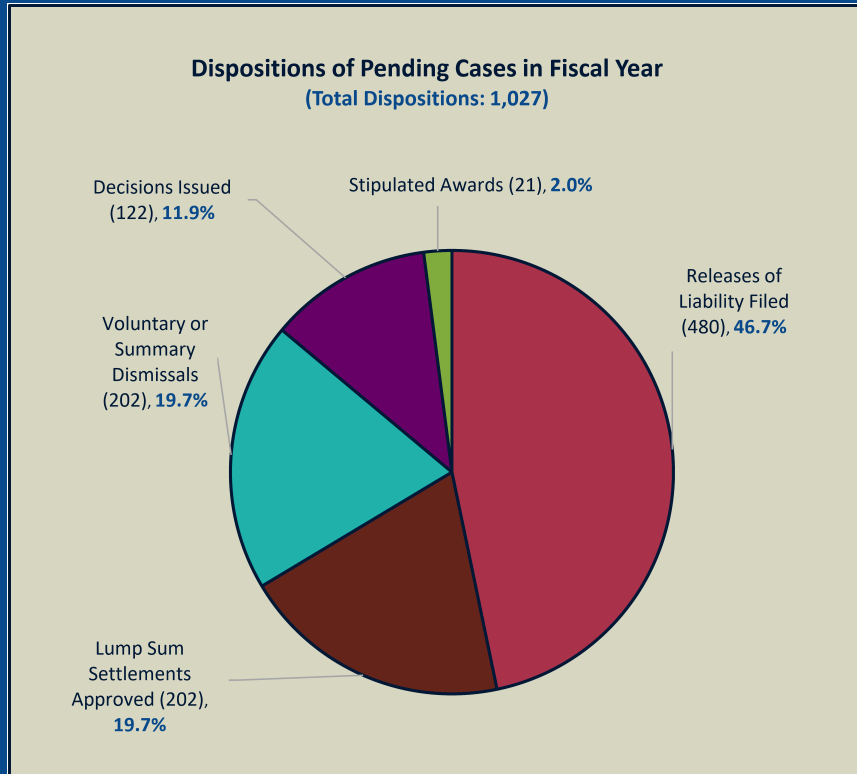

Trials and Evidentiary Hearings by County

Generally, trials and evidentiary hearings are conducted in the county in which the accident occurred unless the litigants agree to a different location (see NEB. REV. STAT. § 48-177). For that reason, the venue for workers' compensation cases could be in any county in Nebraska. In fiscal year 2021, trials were conducted in the 20 Nebraska counties marked below.
